Products written about herein are not intended to diagnose, treat, cure or prevent any disease.

# Why Fermented Chlorella?

WORLD ' S CLEANEST SOURCE OF CHLORELLA

FAR CLEANER AND PURER THAN ALL OUTDOOR GROWN CHLORELLA which accounts for 98% of Chlorella currently sold in Australia

IMPROVED HEAVY METALS DETOXIFICATION ABILITIES --Better ability to bind with toxic metals, pesticides, synthetic chemicals

MUCH SOFTER CELL WALL FOR GREATER DIGESTIBILITY AND HIGHER BIOAVAILABILITY

# A Protein Powerhouse

- High protein 60% content
- Highly digestible whole plant form
- Complete protein source
- All 9 essential amino acids, with exceptional content of:
  - VALINE
  - LEUSINE
  - LYSINE
  - THREONINE

# The Chlorophyll King

Chlorella has the highest amount of  
chlorophyll of any known plant

Our Phytality Fermented Chlorella  
contains 2400mg per 100grams

Has 10 times more chlorophyll than Alfalfa!

# Beta Glucans

Fermentation of Chlorella increases the Beta Glucan properties in our Chlorella

Good concentration of 9.5% Immunity Supporting Beta Glucan content

Research studies provide evidence of the Immunity Supporting benefits

# Benefits Of Fermented Chlorella vs Standard Chlorella

# Detoxification: Supporting Liver Function With Fermented Chlorella

- We are all exposed to a mixture of chemical compounds daily, as well as many nutraceuticals and many foods and nutrients that can upregulate the body's natural processes of eliminating these toxicants
- An overloaded detoxification pathway may lead to clinical patterns such as immune dysfunction or endocrine disruption that indicate potential toxic exposure

# Delicious and Nourishing

Dissolves beautifully in Water and Mixes well with other ingredients, Botanicals and Nutraceuticals can be classed as Wholefood

# Enhance the outcome of Nano Minerals by adding Fermented Chlorella

*Chlorella (C. vulgaris)*
